

## Tutorial

---

### Session 6: Adding Comments in Kidsnaps

The purpose of Kidsnaps is not only to share photos with your peers, but you may also use it to comment the photos of others. This tutorial will guide you through the steps to add comments.

#### *Commenting in Kidsnaps*

- Login using your Username and Password.
- Click on the Home link on the left of the screen. This will take you the Kidsnaps homepage.
- Locate the image that you would like to make a comment about. Then click on it to view the actual size.
- At the bottom of the image, underneath the Awards and Commentary fields, there is a field to add a new comment. Give the comment a title, and then add the comment in the Comment box.
- That's it! Now whenever people look at the image, they can read the comment that you have made.

#### *Things to Consider*

You can tell people what made that image appealing. Think about why that image is more successful than others. You may also add comments on how the photo may be improved.
