ELECTRICITY 3-
WIRED FOR POWER

Objective: To develop knowledge and skills about basic electrical tools and supplies, electrical energy usage, service entry panels, appliance nameplates, and electric switches and receptacles. You will also learn planning, organizing, comparing and measuring, making decisions, communication skills, and problem solving.

MATERIALS THAT ARE INCLUDED WITH THIS PROJECT:

- Electricity 3- Wired for Power
- Record Form
- Electricity 3- Wired for Power Greentop

What do I do with my electricity project materials and information?

SUGGESTED STEPS FOR COMPLETING THE ELECTRICITY PROJECT WITH SUCCESS:

- Review the project book, record sheet, and greentop to become familiar with the project before preparing or giving speeches, workshops, or demonstrations.
- Make a check list of things to complete as you work through the project.
- Attend all small engines project meetings to learn more about your project.
- Participate in county, state, and regional fairs.
- Enter project materials or demonstrations in the county, district, and state contests.
- For completion of the project, complete the record sheet and turn in a county record book to your local Extension Agent.

SUGGESTED LEARNING ACTIVITIES:

- Complete required activities as listed in the project book.
- Attend project days or events to listen to featured experts in the field, or to work on your project with others.

New Mexico State University is an equal opportunity/affirmative action employer and educator. NMSU and the U.S. Department of Agriculture cooperating.

Greeman, 2005
**WHAT YOU CAN DO:**

- Give demonstrations or illustrated talks about the different types of electrical switches and receptacles.
- Exhibit posters with parts and function of an appliance label, and how to read its information at the county, regional, or state fair.
- Give a prepared speech or demonstration on how to replace a wall switch to your club or school.
- Help others prepare a speech or demonstration on how to put together a basic electrical supply kit.

**WHERE YOU CAN GO FOR ADDITIONAL INFORMATION:**

- County Extension Agent
- Your 4-H Club or Project Leader
- Internet
- Local Electric Company
- Local Electricians
- Library

**ADDITIONAL PROJECTS YOU CAN DO NEXT YEAR THAT WOULD RELATE THE SMALL ENGINES PROJECT:**

- Citizenship…………………….help others prepare a speech or demonstration about electrical switches
- Leadership........................give a demonstration about the electrical safety
- Welding............................learn about electrical currents as related to welding and metal fabrication
