Workshops, Trainings and Demonstrations

Crucial parts of the NMSU Extension Dairy Program are tailored educational programs for stakeholders. Since the program was developed in Clovis, NM starting in January 2006 many different programs were conducted.

*Master Hoof Care Technician Program* – a 3 day course conducted by Dr. Jan Shearer.

*Dairy Industry Short Course* – a 3 day introductory course for county agents and allied industry reps.

*Residue prevention training for Milk & Beef* – a 1 day classroom and lab for employees and owners.

*Large Herd Dairy Management* – a 6 week credited class on dairy management for college students.
