Photography Scavenger Hunt

1. **Shoot ‘em up!**
   Take at least 4 *different* pictures of the same subject.

2. **Busy Backdrop Redo**
   Show a *before* and *after* shot of the same subject…
   one with a very busy background, and one with a clean, simple background.

3. **Flash Range Tryout**
   Shooting indoors, start your subject about 20 feet away. Keep shooting photos having your subject closer by about 2 feet until it is in flash range.

4. **Move in Close**
   Take an up-close and personal photo of another person.

5. **Move it from the Middle**
   Shoot a subject away from the middle. Remember the rules of thirds and consider framing your subject in the outer thirds of the photo.

6. **Fun Pose**
   Ask one or two of your peers to pose for a group shot. Get them *doing* something… huddled around a table, *Charlie’s Angel* pose, doing a tango…

7. **Long Arm of the Photographer**
   Move the camera far away from your face… hold it up high or down low to get a different perspective on a shot.

8. **Pattern Picture**
   Shoot an image that shows repetition.
