BlackBerries

New patches have been posted for software versions earlier than v4.0.0, but those earlier than v3.8.0 are ONLY available for loading via USB at this time.

- 1) Print out your appointments from March 11, 2007 to April 1, 2007 and October 28, 2007 to November 4, 2007.
- 2) Using the Internet Browser on your blackberry, go to www.blackberry.com/dst2007/patch/index.shtml follow the links to download the DST Patch Loader. This file will install the update directly on the device.
- 3) Select **Download > Download**.
- 4) When prompted, select **OK**. Your BlackBerry device may be required to reset before the installation is complete and it will usually take up to 15-20 minutes.
- 5) Once the patch is applied you can view the status of the patch in Options-2007 DST Patch and you are finished.
