Marvel: Web Version Features

Green Square: You use this tool to draw a square/rectangle. You can change the color of the square/rectangle at the bottom right side of the screen. You can also add a border to the square/rectangle.

Yellow Circle: You use this tool to draw a circle. You can change the color of the circle at the bottom right side of the screen. You can also add a border to the circle.

Blue Text: You use this tool to type out your text. You can change the color of the text and the font style at the bottom right of the screen.

Pink Line: You use this tool to draw a line. You can change the color and size of the line on the bottom right side at the screen.

Red Photo "Stock photos and icons": You use this to add default images and icons that Marvel provides for you. You can also use this to add images from your computer.

Purple Squares "Title, buttons and other add ons.": You use this to use different title screens, you can add different variety of buttons and other add ons. You can change the color and text at the bottom right side of the screen.

Learning Games Lab

Gray box: Collaborative tool if using premium version.

Settings: The settings is the “gear” icon at the top left of the screen next to the word “Image”. This is where you can change the background color. You can also edit the Title name. You may also change this size of the canvas, however I would recommended leaving the size alone.

Arrange: You can place an image, shape and text Forwards and Backwards. Meaning you can set a text on top (Forwards) of an image (Backwards).

You may share your project with the “share button”.
