Recent Emphases

Agriculture and Extension Education

Administration: Department Head for Agriculture and Extension Education in the College of Agriculture, Consumer and Environmental Sciences at New Mexico State University. Responsibilities include administration of and overall leadership of the department. This includes personnel and budget management with the goal of assisting students to reach their full potential for employment in the agriculture industry. Emphasis is being placed on a team approach with all faculty and staff working together to advise students and meet the needs of our constituents.

Objectives:

- With fellow faculty, provide a vision for the AXED department based on the needs of the students and the requirements of the careers for which we are preparing them.
- Be a department that is responsive and relevant to the students we serve, the College of ACES, NMSU, and the State of New Mexico.
- Build relationships with constituent groups to assist with continuing education.
- Utilize relationships with 4-H and FFA to recruit students to NMSU.

Courses Taught in Department

2012 – Present	ACES 111 Freshman Orientation.
2013 – Present	AXED 100 Introduction to Agricultural and Extension Education Co Instructor
2013 – 2016	AXED 445/545 Developing Excellent Programs in Career and Technical Education.
2014 – 2015	AXED 447/547 Directed Teaching in Agricultural or Technology Education.
2013 – Present	AXED 380 Philosophy and Methods of Contests.
2013 – Present	AXED 488 4-H Youth Development On-line.
2014 – 2016	AXED 489 The FFA Organization: An Overview On-line.

Courses Taught Outside Department

2002 – Present	ANSC 310 Exhibiting Livestock
2015 – Present	County College Extension 101 Cooperative Extension Service

Graduate Committees Served

Since 2004 I have been a member of thirteen AXED Graduate Committees, and have chaired an additional twelve. In addition to AXED department committees, I have served on seven committees in other departments such as Animal Science, Agricultural Economics, Government, Entomology Plant Pathology and Weed Science. I have served on one doctoral committee in the College of Education and am now serving on a committee for a Doctorate of Nursing candidate.

State 4-H Office New Mexico State University

Administration: Administration of the State 4-H Office encompasses more than just the day to day operations of New Mexico's largest youth development organization. While this is important, it is more important to determine the needs of the youth development professionals that work in the counties and provide the support needed to enrich the county 4-H program.

Objectives:

- Provide a vision for the 4-H program in New Mexico based on needs of the counties and new programs and opportunities that become available.
- Be a department that is responsive and relevant to the clientele that we serve, the county youth development professionals and ultimately the 4-H youth.
- Provide new youth development professionals with training to be successful in their chosen career.
- Build relationships with county faculty to facilitate communication and determine needs.

Extension: Served as Agriculture and Natural Resources Youth Development Specialist. This position afforded me the opportunity to provide programs in the specialty area to statewide audiences that were identified by the County 4-H personnel and volunteers. This included large state events such as Horse and Livestock Schools and Shooting Sports.

Research: Focus on youth development, reasons why members stay in 4-H program, and needs assessments for county and state programs, as well as the impact 4-H has on senior members.

Service: Cooperative Extension Service Administrative Team; Western Region 4-H Program Leaders group; Western Region Program Leaders group (sub group of Western Regions Directors Association); National 4-H Leadership Trust.
