

# Prevent Norovirus Infection!

1. Protect yourself. Put on disposable gloves and a mask, if you have one.

2. Wipe up vomit and poop with paper towels and put them in a plastic trash bag.

3. Pour disinfecting solution on all surfaces that may have vomit or poop on them. Soak as instructed on the label.

4. Wipe up disinfecting solution with paper towels and clean all surfaces again with hot water and soap.

5. Throw away gloves and other PPE in biohazard bag. Remove garbage immediately.

- Remove and wash all clothing or fabric that may have touched vomit or diarrhea

- Machine wash these items with detergent, hot water and **bleach** if recommended, choosing the longest wash cycle
- Machine dry

6. If clothing or other fabrics are contaminated, remove them and wash all laundry that may have vomit or poop on them with hot water and soap.

7. Wash your hands correctly with warm water and soap.
