

Online Soil Health Workshop
October 27-28, 2020 (Tuesday-Wednesday)
9 a.m.-3:30 p.m. daily

Join us for this two-day online Soil Health Workshop. The workshop will address fundamental aspects of soil health, as well as applied soil management for cropland and rangeland. Topics include the physical, chemical, and biological soil properties in relation to soil health management. Other topics include cover cropping, crop rotation, livestock integration into cropping systems, tillage management, organic amendments, grazing/pasture management, and cropland/rangeland assessment.

**Presenters include
 scientists from NMSU and USDA-NRCS, as well as
 other experienced soil professionals from the private sector.**

Register in advance for this meeting:

<https://nmsu.zoom.us/meeting/register/tJ0vdOmvzkvGdZSej4r3thTKtyacaeK7VPj>

**Conference registration is free for all participants.
 For more information, contact John Idowu at jidowu@nmsu.edu.**

This workshop is organized by
 the New Mexico State University Cooperative Extension Service and funded by
 the Healthy Soil Program administered by the New Mexico Department of Agriculture.
