

College of Agricultural, Consumer and Environmental Sciences

Eastern Extension District Profile

Cooperative Extension Service • extension.nmsu.edu • 575-646-5280

Selected Program Impacts

- **Safety programs reach over 5,000 youth** annually, providing hands-on training on ATV safety, lawnmower and home chemical safety, how to make a 911 call, water safety, and first aid.
- **Diabetic cooking schools** are conducted throughout the district, increasing participants' knowledge of healthy food choices and meal planning and providing hands-on opportunities to learn cooking techniques.
- **Agricultural programs** are conducted in beef production, range management, and crop production. Programs centered on sustainable production enable the district to produce over 56% of the state's agricultural cash receipts.
- **District 4-H programming reached 18,400 youth.** More than 450 adult volunteers contributed over 11,000 hours valued at \$110,000.
- **Extension Home Economists provide programs** on cancer screening, day care provider training, home business development, family health screening, and nutrition, helping to extend the lives of clientele and improving family resources.
- **Demonstrations and on-farm trials** located throughout the district help clientele refine growing practices for specific locations.
- **Ideas for Cooking and Nutrition programs** reached over 14,800 clientele, teaching healthy food choices, food preparation, food safety, and food resource management.
- **Extension agents have established** community gardens, local food cooperatives, and farmers' markets, providing rural citizens a source of produce and stimulating economic development.
- **Extension agents are working** with local communities to provide programs for military families, conduct hospitality training for businesses, and provide assistance in community resource development to build stronger communities and encourage economic development.

Mission Statement

Provide the people of New Mexico with practical, research-based knowledge and programs to improve their quality of life. The base programs of the Cooperative Extension Service are agriculture and natural resources, consumer and family issues, youth development, and community economic development.

2016 Quick Facts

- Eastern District faculty reached over 110,000 clientele in 2016 through county-based Extension programs, conferences, field days, school programs, and one-on-one consulting.
- Eastern District produces 56% of New Mexico's agricultural cash receipts. Our counties rank in the top 50 nationally in dairy, sheep, cattle, pecan, and peanut production.
- Eastern District Extension agents reach clientele through mass media outlets, such as newspapers, radio, television, and the internet.
