

# Marvin E. Jojola

Name: Marvin E. Jojola

Hometown: Isleta Pueblo, New Mexico

School: New Mexico State University

Major: Wildlife Science

Graduation Date: December, 2017

Email: mejojola@gmail.com

## About Yourself:

Hi my name is Marvin Jojola. I was born and raised in Isleta Pueblo, New Mexico and am currently pursuing a degree in Wildlife Science. I enjoy hunting and fishing, which helped influence me pursuing my degree. I would like to work with wildlife habitat restoration and riparian restoration.

## Career Experiences:

I have worked many small jobs ranging from maintenance and carpentry, to researching with different universities. In the summer of 2015, I was excepted into the Maximizing Access to Research Careers (MARC) Program. Since then I have done research in algae growth for biofuels production. In the summer of 2016 I attended the Miami University Ecology Research Experience for Undergraduates Program where I research sediment and nutrient dynamics in stream systems. Summer of 2017, I worked in wilderness trails in the Alpine RD with the USFS.

## Skills:

Kayaking, Carpentry Skills, Water Sample Collecting, GPS Operation, Plant Identification- mainly SW US, Animal Identification- mammals and fish, Map Reading, Backpacking and Camping, Timber Marking and Cruising.

## Accomplishments/ Clubs/ other:

- NMSU and Tribal Scholarships
- Former MARC Fellow
- Former NRCT Member

## Plans after Graduation:

After graduation I got a Recent Graduate position through the Pathways Program. I am a Timber Marker with US Forest Service. I am stationed in Williams RD, working in the South Kaibab National Forest
